## WORK EXPERIENCE

### Freelance Frontend & App Developer

Jul 2025 - Present

- Designed and developed 3 fully responsive web frontends using modern technologies, focusing on clean UI, performance optimization, and cross-device compatibility.
- Built the complete frontend of a travel mobile application using Flutter and Dart, implementing state management, REST API integration, dynamic UI rendering, navigation routing, and responsive design for Android and iOS platforms.
- Projects: ravi-technology.vercel.app, onlinecattlemarket.vercel.app, niquo.vercel.app

### Frontend Developer Intern - Unico Studios

Jan 2025 - Jun 2025

- Developed 4 fully responsive, SEO-optimized websites using Next.js and Tailwind CSS, focusing on clean, maintainable code and smooth UI animations.
- Collaborated with SEO and design team to deliver fast, accessible, and high-performing websites, improving usability and search engine visibility.
- Projects: hazeuae.com, unicostudios.in, dupreearmon.com, immersified-me.com

## SKILLS

**Programming Languages:** JavaScript, TypeScript, Java

**Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, REST API, Redux, Tailwind CSS, Flutter

**Databases:** PostgreSQL, MongoDB

**Development Tools:** VS Code, Git, GitHub, Figma

**Soft Skills:** Creativity, Innovation, Adaptability, Agility

## PROJECTS

### Finance Visualizer

Jun 2025 - Jul 2025

financevisualizer.vercel.app | github.com/soni-naveen/finance-visualizer

- Built a full-stack finance tracking app using Next.js, MongoDB, and Firebase Auth, enabling secure user login and personalized transaction management.
- Implemented dynamic financial dashboards with Recharts, featuring bar and pie charts to visualize monthly expenses and spending by category.
- Developed a responsive UI with Tailwind CSS and Shadcn/ui, ensuring a clean, mobile-friendly experience for budgeting, tracking, and financial insights.

### Ecoride Carpool

Feb 2024 – Jun 2024

theecoride.in | github.com/soni-naveen/ecoride | github.com/soni-naveen/Ecoride-backend

- Developed a responsive web application using React.js and Tailwind CSS with secure authentication, authorization, and error handling. Ensured smooth performance and a user-friendly interface across all devices.
- Designed and managed MongoDB databases for user data, including deployment and maintenance.
- Developed secure and scalable RESTful API's using Express.js, implementing user authentication, ride management, profile management, real-time chat, and notifications. Integrated JWT, WebSockets, Nodemailer and Google reCAPTCHA to enhance security, communication, and user experience.
- Integrated third-party APIs such as Leaflet, Geoapify for route planning and geolocation services.
